

Greater Orlando Medical Spa is a proud part of the Family Health Center of Greater Orlando. Located just three doors down from the spa, this family medicine office has been servicing Seminole County for more than 25 years.

Both the Family Health Center of Greater Orlando and Greater Orlando Medical Spa are owned and operated by Dr. Jeffrey A. Downing and Dr. Richard K. Dycus II.

All services and procedures are provided or directly supervised by either Dr. Downing or Dr. Dycus.

AESTHETIC SERVICES

CRYSTAL-FREE MICRODERMABRASION

Experience a microdermabrasion like no other! SkinBella is a non invasive Italian technology utilizing an ultrasonic applicator to provide exfoliation, invigoration, hydration and circulation. This wet facial peel will leave your skin looking and feeling great. All with no pain and no downtime. Treatment is available in a "full," 60 minute session, or "lunchtime," 30 minute session.

TATTOO REMOVAL

Finally, the ability to remove an unwanted, single or multi-colored tattoo. Using an innovative Q-switched Nd:Yag LASER, tattoos can be significantly or completely eliminated. The LASER selectively targets and fragments the tattoo pigments while leaving the surrounding tissues intact and unharmed.

CELLULITE REDUCTION

At last, a treatment for stubborn cellulite left behind even after diet and exercise. State of the art FDA approved Dermasonic offers a painless, non-surgical method to destroy cellulite. The process utilizes ultrasound and a non-invasive subdermal therapy instead of vigorous rolling and vacuuming that can lead to painful bruising. The results are elimination of fat cell deposits and the dimpled appearance of cellulite.

BOTOX & DERMAL FILLERS

Diminish the signs of aging with the use of Botox and Juvederm. These advanced breakthroughs reduce wrinkles around the eyes, forehead, chin, and lips. The treatments work by reducing the muscle tension or filling wrinkle cavities. Medications are safely administered by physicians. Cost for treatment is based on amount required and your individual needs.

MASSAGE THERAPY

Allow yourself to relax and enjoy the many benefits of massage therapy. Regular, deep tissue and swedish massages performed by a licensed massage therapist can be purchased in 30 or 60 minute intervals. Please call to inquire of other specialty types and durations of massages available.

OXYGEN BOTANICALS

A revolutionary skin care product is finally available! Oxygen Botanicals is a complete line of high-quality, yet affordable skin care products. With a time-release delivery system, Oxygen Botanicals can deliver pure oxygen and natural botanicals to your face, neck and hands 24 hours a day. Products are naturally infused with pure oxygen and are not chemically derived. These pharmaceutical grade products will help moisturize and firm skin, leaving it looking and feeling healthier.

PERMANENT HAIR REDUCTION

Using the latest science of LASER and Multi-PIP Intense Pulse Light, unwanted hair on almost any part of the body can be reduced permanently. Most patients report little to no discomfort during or after treatments. Following completion of the recommended schedule, you will enjoy spending less time and money on shaving, waxing and electrolysis.

VASCULAR LESION TREATMENT

Unightly spider veins, rosacea, telangectasias, and capillary hemangiomas can now be treated easily and efficiently in just a few treatments with the use of a Long pulse Nd:Yag LASER and Intense Pulse Light therapy.

PIGMENTED LESION TREATMENT

Now you can easily eliminate those dark lesions. Light therapies can remove sun spots, age spots, freckles, and cafe-au-lait spots. In addition, unightly scars can be drastically minimized with these treatments.

PHOTOREJUVENATION/ PHOTOFACIALS

Erase the effects of age including wrinkles, unwanted blemishes and uneven skin tone with a photorejuvenation treatment. This nonsurgical, nonablative technique resurfaces skin and stimulates collagen production. Patients report minimal to no discomfort during the procedure and no downtime afterwards. The results are a younger, firmer, glowing complexion with improved skin texture.
